OBJECTIVE

My goal to contribute to the success of a forward-thinking organization by designing, developing, and deploying cutting-edge web applications. My goal is to utilize my proficiency in both front-end and back-end technologies to create seamless and efficient solutions, fostering a positive user experience. I am committed to staying abreast of emerging technologies, collaborating with cross-functional teams, and continuously improving my skills to deliver high-quality software solutions that meet and exceed client expectations.

EXPERIENCE

10/2023 - Present **Developers and Designers**
SR. Backend developer
Leading the development of a comprehensive microservices system with expertise in Redis, RabbitMQ, Kubernetes, Docker, and Laravel PHP backend. Proficient in designing scalable and resilient systems using MongoDB and MySQL databases. Adept at creating user stories and technical tasks on Jira for streamlined project management. Specialized in crafting custom packages to enhance system functionality and efficiency. Contributing to a cutting-edge, modular architecture that embraces containerization and orchestrates seamless deployment.

08/2022 - 10/2023 **Egpay**
Full Stack developer
Engaged in developing a payment site akin to Fawry, actively involved in PCI certification auditing for enhanced security compliance. Proficient in seamlessly integrating diverse payment companies and banks, ensuring a comprehensive and secure transaction ecosystem. Successfully implemented robust payment gateways, adhering to industry standards and regulations. Demonstrated expertise in interfacing with multiple financial institutions to broaden payment options. Contributing to a cutting-edge payment platform with a focus on security, compliance, and seamless integrations.

08/2021 - 08/2022 **Beone Express**
Back End Developer
Expert in PHP Laravel, MySQL, Livewire, and frontend technologies (JavaScript, jQuery, HTML, CSS, Bootstrap). Specialized in implementing a multi-tenant architecture using the Tenancy package, ensuring secure isolation of data for individual stores. Proficient in API development for seamless communication between project components. Skilled in crafting responsive and visually appealing e-commerce interfaces. Successfully contributed to a large-scale project akin to Expand Cart.

05/2021 - 07/2021 **Marselia Group**
Full Stack developer
I bring extensive experience in designing, developing, and deploying e-commerce websites from the ground up using a tech stack that includes PHP Laravel, Bootstrap, jQuery, Ajax, MySQL database, and creating APIs for seamless communication. My skills extend beyond the development phase to encompass domain acquisition, hosting setup, and ensuring websites are operational online.

09/2020 - 02/2021 **Speed Company**
Full Stack developer
I possess a wealth of experience in end-to-end development of e-commerce websites, using PHP Laravel for backend development, frontend technologies such as HTML, CSS, JavaScript, jQuery and bootstrap for the user interface, and effectively managing domains and hosting.

06/2020 - 09/2020 **Just work media**
Web developer
I have extensive experience in building websites using WordPress. Over the course of my career, I have successfully designed, developed, and maintained numerous WordPress sites, catering to diverse needs and industries.
